

⑭<sup>th</sup> International Festival of Arts

# ARTERIA

Muzej–Museo Lapidarium<sup>15–22/9/2023</sup>

# UNPLUGGED

The festival encourages classical artistic disciplines, such as painting, drawing, sculpture, extended by performance and literary expressions. The focus of the festival is on collaborative projects of a one-week residency of international and Istrian artists in Novi-grad. Reuniting artists, working alongside them, responding to new places, light and community, create a public display on the last day of the residence. The Museum Lapidarium acts as open studio for the public.
